This article has been withdrawn by Sabine Wislet-Gendebien, Cheryl D'Souza, Toshitaka Kawarai, Peter St George-Hyslop, David Westaway, Paul Fraser, and Anurag Tandon. The  $\alpha$ -synuclein and GAPDH bands at 30 min were superimposed on the earlier time points in Fig. 1*B*. The GAPDH bands in Fig. 4*B* were reused in Fig. 7*A*.
