Introduction

CW3C (Walloon Cell for Control of Carcasses Classification)

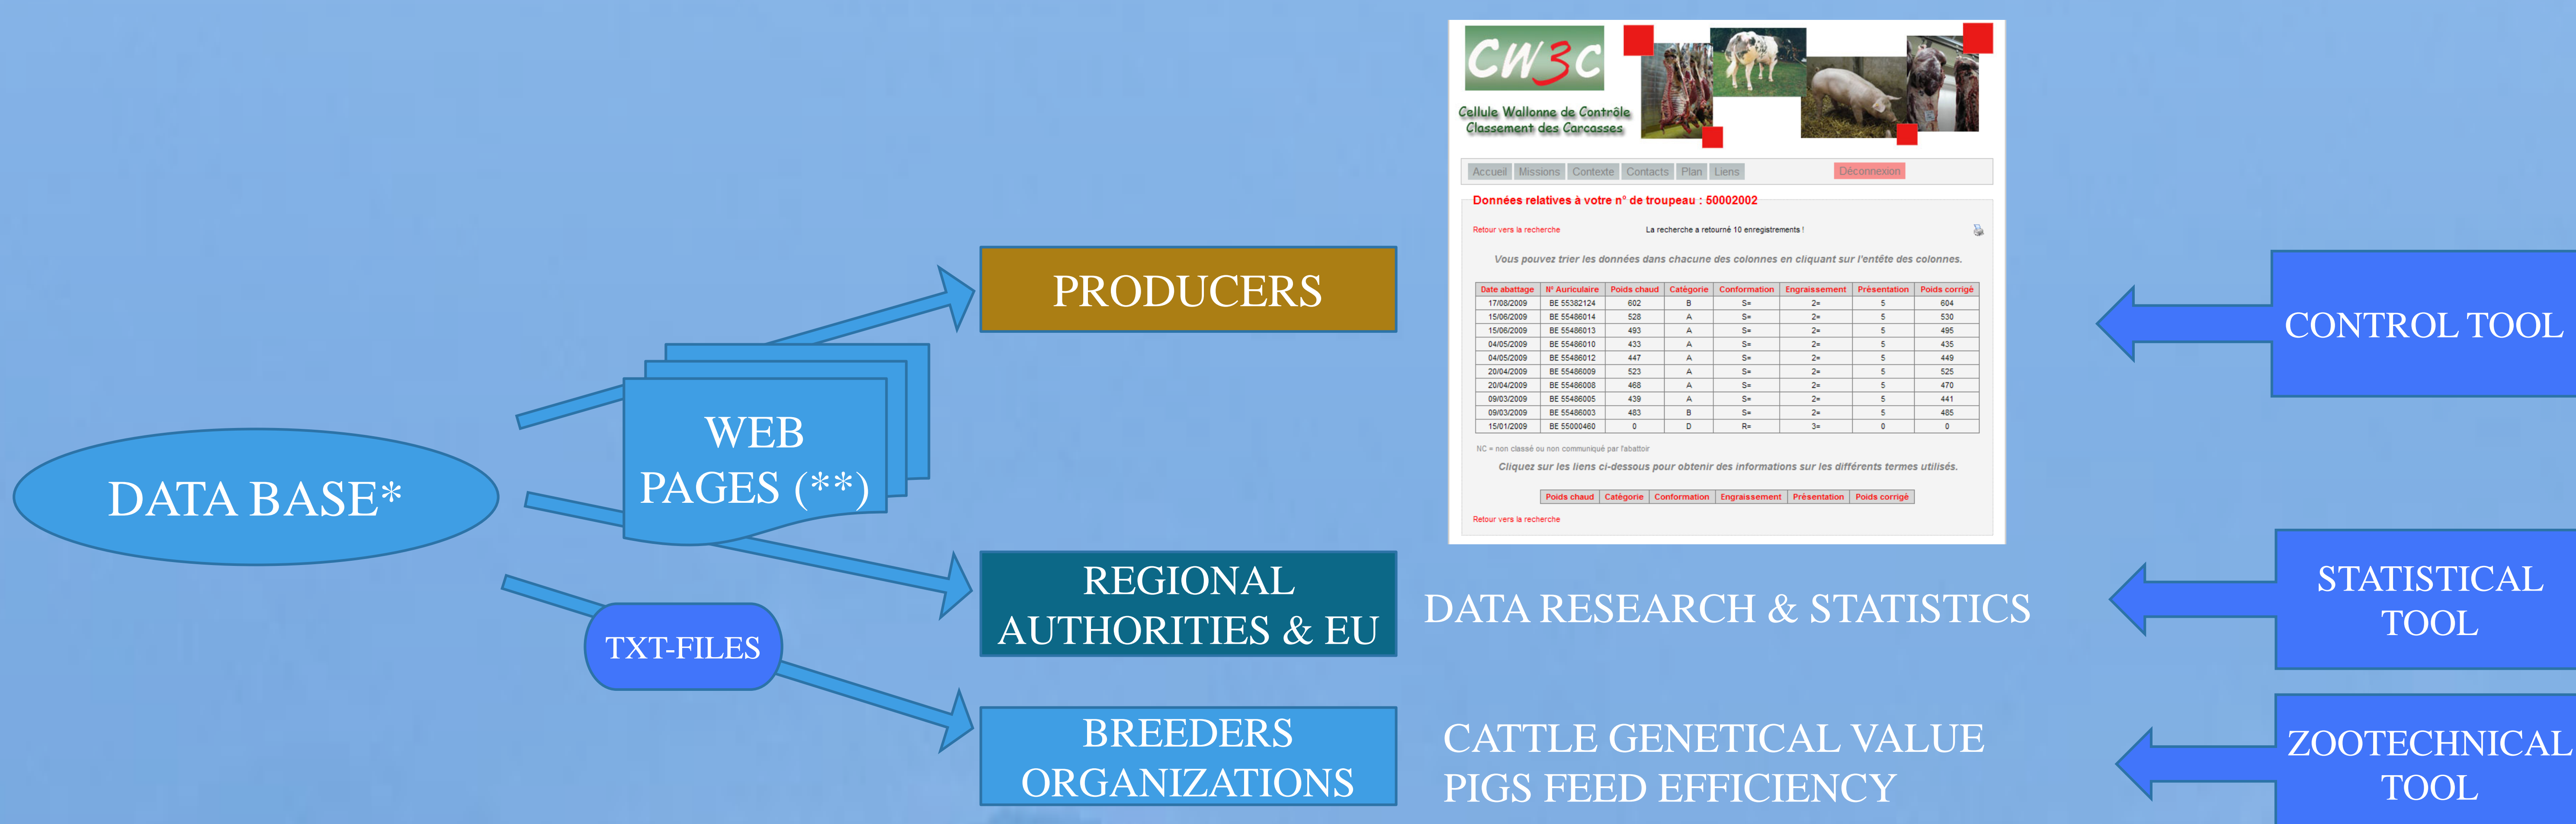

created by the Walloon Region in 2007,
official organism responsible in Wallonia for:

- (1) checking the carcasses classification of large cattle and pigs,
- (2) checking the autocontrol procedure of the slaughterhouses,
- (3) ensure the transmission of the classification data to the producers and the official authorities.

Material and methods

Results and Discussion

(*) DATA BASE is functional since 1st January 2008 . 208,748 data were collected for beef carcasses and 1,280,942 data for pigs carcasses in 2008.
(**) ONLINE access by WEB PAGES is available since 1st March 2009, 200 registered members, 1,200 connections on the CW3C site.
