

# MARINE MICROORGANISMS AND THEIR CONTRIBUTION TO GLOBAL BIOGEOCHEMICAL CYCLES

*Symposium in honour of Professor Lucas Stal*

## Scientific program

10:00 Welcome and coffee

10:30 David Paterson (University of St. Andrews, Scotland)

“Diatom Mats”

11:00 Francisco Rodríguez-Valera ( Universidad Miguel  
Hernández, Alicante, Spain)

“Molecular Techniques in Marine Microbiology”

11:30 Silvia Acinas ( ICM-CSIC, Barcelona, Spain)

“The Global Oceanic Microbiome”

12:00 – 13:00 Lunch

13:00 Ina Severin (Berlin, Germany)

“N<sub>2</sub> fixation in Microbial Mats”

13:30 Annick Wilmotte (Université de Liège , Liège, Belgium)

“Antarctic Cyanobacteria: from Diversity to Genomics”

14:00 Henk Bolhuis (NIOZ, Texel, Netherlands)

“Molecular Ecology of Coastal Microbial Mats”

## Valedictory lecture

14:30 Lucas Stal:

“About Cyanos: 40 Years Later”

## Personal address

Jaap Sinninghe Damsté (NIOZ)

Jef Huisman (UvA)

## Drinks

Organized by

Date: 30 June 2017

Venue: Doelenzaal, Singel 425, Amsterdam

Participation free, registration required.

Registration: [p.thiery-vanderbij@uva.nl](mailto:p.thiery-vanderbij@uva.nl)

Organizing committee:

Henk Bolhuis, Gerard Muyzer, Jef Huisman
