

Geophysics Transfer of Copyright Agreement

Agreement must be signed by lead or corresponding author and returned to SEG Business Office before article receives final acceptance.

Article title: _____

Names of all authors: _____

For and in consideration of the potential publication of the article listed above (the "Work") by the Society of Exploration Geophysicists ("SEG"), I, the undersigned, as lead and/or corresponding author and/or rightsholders and acting on behalf of all authors and/or owners of copyright in the Work ("Authors"), hereby transfer, assign, and convey all right, title, interest, and worldwide copyright in the Work to SEG, effective if and when the paper is accepted for publication, subject only to limitations expressed in this Transfer of Copyright (the "Agreement"). The Agreement, executed jointly and severally by Authors if copyright transfer is from multiple individuals or entities, includes all material to be published as part of the article, in any medium, including but not limited to tables, figures, graphs, source code, movies, and other multimedia. Responses to discussions of the Work, errata, and other similar material directly related to the Work which may arise subsequent to publication also are considered part of the Work. In the event the Work incorporates copyrighted material of others, Authors warrant that all required permissions or releases have been secured. Authors agree to indemnify, defend, and hold SEG, its directors, officers, employees, and agents harmless against any claims to the contrary.

Authors shall retain the following royalty-free rights:

1. The right to reproduce the Work, including figures, drawings, tables, and abstracts of the Work, with proper copyright acknowledgment, for any purpose
2. The nonexclusive right, after publication in *Geophysics*, to authorize third parties to republish the Work or translations or portions thereof, provided the *Geophysics*-formatted version is not used (SEG permission is required if the *Geophysics*-formatted version is used)
3. All proprietary rights in the Work that are not transferred to SEG in the Agreement, including the right to any patentable subject matter that may be contained in the Work
4. The right to make oral presentation of the same or similar information as that contained in the Work provided acknowledgment is made of SEG copyright ownership and publication status
5. The right to post a final accepted version of the manuscript or the final SEG-formatted version on Authors' personal Web sites (not including social-network sites used for article sharing), employers' Web sites, or in institutional repositories operated and controlled exclusively by Authors' employers provided that (a) the *Geophysics*-published version is presented without modification; (b) copyright notice and a full citation appear with the paper; (c) a live link to the version of record in the SEG Digital Library using Digital Object Identifier (DOI) permalinks is provided; (d) the posting is noncommercial in nature, and the paper is made available to users without charge; (e) that notice is provided that use is subject to SEG terms of use and conditions; and (f) that a posting of the Work in an institutional repository neither carries nor is implied as carrying a license contrary to SEG copyright and terms of use
6. The right to prepare and hold copyright in derivative publications based on the Work provided that the derivative work is published subsequent to the official date of the original paper's publication by SEG
7. The right to post to their own Web sites a preprint (a version prior to *Geophysics*' accepted and published version) of the Work provided that the posting is accompanied by prominent notice that the Work is under review for publication in *Geophysics* and that upon publication by SEG, the preprint is taken offline and replaced with either (a) a full citation to the published work with a DOI permalink to the paper's abstract, (b) the final published version subject to SEG conditions for such posting, or (c) a modification of the Work with notification stating the work is a modification of the SEG version, also subject to SEG conditions for such posting; and that if the Work is rejected for publication by SEG, notice of its under-review status be removed
8. The right to reuse all or part of the Work in a thesis or dissertation that the Author writes and is required to submit to satisfy criteria of degree-granting institutions
9. The nonexclusive right, after publication by SEG, to give permission to third parties to republish print versions of the paper, or excerpts therefrom, without obtaining permission from SEG, provided that (a) the SEG-published version is not used for this purpose; (b) the paper is not republished in a journal, book, or collection of conference abstracts or proceedings; and (c) the third party does not charge a fee. Permission must be obtained from SEG for other republication of the paper.

SEG may republish the Work or portions thereof in any future SEG publication or compilation in any form and in any language, and SEG retains nonexclusive right to license third parties to do the same.

This Agreement entitles the undersigned (or in the case of a Work Made for Hire, the employer) to retain all other rights. Authors confirm that this article has not been published previously elsewhere, nor is it under consideration by any other publisher, that the Work does not infringe any copyright or invade any right of privacy or publicity, and that they have the full power to enter into this Agreement and to make the grants contained herein. Authors warrant that they have complied and will comply with Ethical Guidelines for SEG Publications and that they agree to the provisions of these guidelines. This Agreement shall be binding on Authors' heirs, executors, administrators, and assigns, and shall be construed in accordance with the laws of the State of Oklahoma, United States of America.

IN WITNESS WHEREOF, I have executed this Transfer of Copyright on this ____ day of _____, 20____.
