

Time to make a choice between a fully liberal or fully regulated model for the electrical industry

Prof. Damien ERNST

Gansu wind farm (20,000 MW by 2020)

The electrical grid in China by 2020

National Grid Plan in About 2020

#1 End entirely subsidies for renewable energy.

#2 Introduce competition in the electrical distribution and transmission sector.

#3 Fully privatize the problem of security of supply.
