

Mobile Research: a challenge!

How can I find my way in this mountain of information ? ...
Administration is harder than my research !

ImpactE Researcher Survey (1)

The most common factors that mobile researchers thought were areas for improvement when integrating into a new environment i.e. the things they would like to see or what they would consider useful. The bar graph represents the number of responses received in each category.

Your access to mobility : Votre clé pour la mobilité :
